CSOs IMPACT STORYTELLING CHALLENGE - CALL FOR APPLICATIONS

Who are we?

MediaSpace Tanzania (MediaSpace) is an innovation and ICT-based organisation promoting, on one hand; a dynamic, free and responsible media sector, and on the other; public access to media where the public is free to express their voices. Our approach includes storytelling, curation of women and youth voices, co-creation as well as partnership mind-cracking. We desire to inspire change and empower the public to embrace good governance, democratic values and human rights for sustainable community development. Through our programmes, we are striving to create active citizenry; innovative, free and responsible media; as well as free spaces to dialogue and discuss issues.

In the bid to promote the great work of Civil Society Organisations (CSOs), the promotion of Good Governance and the Rule of Law in Tanzania, MediaSpace has organised the **“Impact Storytelling Challenge”**.

About the Call/ Challenge

The **“Impact Storytelling Challenge”** aims to create a platform where CSOs can share and highlight the great work their organisations have done to transform lives and the impact it has created on the public. The Storytelling Challenge is an opportunity to increase public awareness of CSO’s work and impactful engagements in a bid to galvanize stakeholder support and promote civic space and rule of law in Tanzania.

MediaSpace would like to invite all CSOs in Tanzania to participate in the Challenge to amplify the impact created by the specific CSOs in the communities they serve. The Challenge will also create an opportunity for CSOs to increase their visibility, showcase their best work and network with their stakeholders, government, the public and the media.

A panel of renown industry judges will nominate the best CSOs through the Storytelling Challenge Sessions. The public will be given the opportunity to vote for the best, most

impactful 16 stories, which will be curated and published in MediaSpace CSOs challenge digital platform and on both traditional and non-traditional media platforms to disseminate stories and data to the general public.

How can you Apply?

In no more than a page, tell us three success stories of your work explaining why the stories are worthy to be amplified.

The document should be sent to info@mediaspace.or.tz with the subject “**CSOs Impact Storytelling Challenge**”. Deadline for applications is **15 May 2020**.
